

**CERTIFICATE OF HEALTH
FEEDGRADE PHOSPHATE MINERAL SUPPLEMENTS**

To Whom It May Concern,

PCS FeedGrade mineral phosphate products, including PCS 21%P Monocalcium PCS 18.5% Dicalcium phosphate, and 18%P Defluorinated Phosphate are manufactured in the United States of America using Good Manufacturing Practices and HACCP analysis. These Products meet the requirements of the Association of American Feed Control Officials (US-FDA) and are safe for use in all animal feeds. All PCS feed phosphate plants and warehouses are Safe Feed Safe Food Certified.

PCS feed phosphate mineral products are produced in the United States entirely from natural phosphate ore. They do not contain imported products of any kind. They do not contain antibiotics or growth promotants or stimulants of any kind including β -agonists such as CLENBUTEROL, SALBUTAMOL, etc. They do not contain the organic base compound called MELAMINE.

Sincerely,

Steve Auman 5/24/07
